

i3Pro Broker Online

Let your broker do the work for you using i3Pro Broker Online

i3Pro Broker online is a fully integrated and internet ready online broker portal

Your Broker Can:

- » Manage their client's quotes, policies, claims and accounts online
- » Access client information in real time
- » Request and accept quotes online
- » Receive renewal notices and payment reminders
- » View, print, and distribute historical client information

As part of the i3Pro Online solutions range, **Broker Online** allows you to create an online "touchless" communication and business channel between your organisation and your broker network.

With **Broker Online** your brokers can access their client information securely online anytime they wish and will give your brokers greater control over their client information with faster and more convenient access to your insurance services.

Benefits for your business:

- » Create new online sales channels
- » Receive real time information from your brokers
- » Reduce enquiries and brokers support requirements
- » Capture data direct from brokers with no double handling

Benefits for your brokers:

- » Reduced need to place support requests
- » Access client account information worldwide and at any time
- » Improved service offering Faster, more convenient access to insurance services

i3Pro Broker Online – your online solution for offsite business.
