

i3Pro Client Online

i3Pro Client Online is a fully integrated and internet ready online client portal.

As part of the i3Pro Online solutions range Client Online allows you to create an online "touchless" communication and business channel between your organisation and your clients.

- » Your clients can manage quotes, policies, claims and accounts online
- » Access their information in real time
- » Obtain a reprint of schedule, invoice or account statement

With **Client Online** your clients can access their information securely online anytime they wish and will give your clients greater control over their information and faster more convenient access to your insurance services.

Benefits for your business:

- » Create new online sales channels
- » Receive real time information from your clients
- » Reduce enquiries and clients support requirements
- » Capture data direct from clients with no double handling

Benefits for your clients:

- » Faster, more convenient access to insurance services
- » Reduced need to place support requests
- » Access their account information worldwide and at any time, any place, anywhere

i3Pro Client Online - Making it easier for you to deliver more!
